**ATTACHMENT A, SECTION 1 OF 2 SECTIONS:  
SPECIFICATIONS FOR THE ANALYTICAL NARRATIVE APPRAISAL REPORT**

**General.** In the preparation of this report, the Contractor shall follow current professional appraisal practices giving consideration to three approaches to value, namely, the Cost, Income Capitalization and Sales Comparison, unless otherwise specifically stated in the Contract. Should certain approaches or requirements covered in these specifications not be applicable to the assignment, the contractual obligation can be fulfilled by identifying that approach or requirement together with a brief explanation for its omission (i.e., an appraisal involving land valuation only). Supplementary specifications may be furnished as necessary in the appraisal of specific properties.

**Format.** The report shall be bound in book-fashion, in the left margin, in a durable cover with the County Contract Number on the face thereof. The paper used shall be of good grade, minimum 20-pound weight, of size 8 1/2 by 11 inches. All pages shall be numbered consecutively, including all exhibits, and each important heading shall be shown in the Table of Contents. To provide uniformity for County files, the text shall be divided into four parts as outlined below.

Except for the overall view, photographs may be bound as pages facing the discussion or description which the photographs concern. All graphic material shall include captions. Each copy of the report shall contain original color photographs. If digital photographs are used, print quality shall be of fine quality, and a Cd containing the digital images shall be attached to the inside front cover of the report.

**5. STATEMENT OF LIMITING CONDITIONS AND ASSUMPTIONS.**

**6. REFERENCES.** If preferred, may be shown with applicable approach.

**PART II - FACTUAL DATA**

**7. PURPOSE OF THE APPRAISAL.** This shall include the reason for the appraisal, a definition of all values required, and a description of the property rights appraised.

**8. LEGAL DESCRIPTION.** The legal description shall be so complete as to properly identify the property appraised. If lengthy, it should be referenced and included in Part IV.

**9. AREA, CITY, AND NEIGHBORHOOD DATA.** This data should include such information as it affects the appraised property, together with the appraiser's conclusions as to significant trends.

**10. PROPERTY DATA-**

**A. SITE** - Describe the soil, topography, public or private access and utilities, mineral deposits, easements, etc. A statement must be made concerning the existence or nonexistence of mineral deposits having a commercial value.

Any related personality or equipment, such as tenant trade fixtures, which are not attached or considered part of the realty, shall be separately inventoried. Where applicable, these detachable or individually owned items shall be separately valued.

**D. HISTORY** - State briefly the purpose for which the improvements were designed, dates of original construction and major renovation and/or additions; include, for privately owned property, a five-year record as to each parcel, of all sales and, if possible, offers to buy or sell, and recent lease(s); if no sale within the last five years, include a report of the last

**E. ASSESSED VALUE AND ANNUAL TAXES** - Include the current assessment and annual amount of real

**F. INSURANCE** - Give the estimated rate per thousand and the annual cost of adequate insurance (not necessarily present coverage).

**G. ZONING** - Describe the zoning for subject and comparable properties (where government owned, state what zoning might reasonably be anticipated under private ownership) and if rezoning is imminent, discuss further under Item 11.

### **PART III - ANALYSES AND CONCLUSIONS**

The valuation shall be based on this use, which should be found to be physically possible, legally permissible, financially feasible, and maximally productive. The reasoning behind the appraiser's conclusion shall be fully explained.

Capitalization of net income shall be at the rate prevailing for this type of property and location. The capitalization technique, method and rate used shall be explained in narrative form supported by a statement of sources of rates and factors.

**15. VALUE ESTIMATE BY SALES COMPARISON APPROACH.** This shall include adequate factual data. All sales used shall be confirmed by the buyer, seller, broker, or other persons having knowledge of the price, terms, and conditions of sale. Adjustments should be made from the sales to the subject, either in dollar amounts or percentages for all applicable elements of comparison.

**16. INTERPRETATION AND CORRELATION OF ESTIMATES.** The appraiser shall interpret the foregoing estimates and shall state the appraiser's reasons why one or more of the conclusions reached in Items (13), (14), and (15) are indicative of the market value of the property.

- ☐ 4. **SPECIAL USE VALUE.** The marketable measure of the value to a known user of a specialized type property to provide usefulness, service, or profitableness above the value of the property if vacant (Examples: This value could apply to a lessee in possession, an adjacent property holder; or a public body.)
- ☐ 5. **SALVAGE VALUE.** The price expectable for the whole improvement (for example, a building), or part of the whole improvement (for example, a plumbing fixture), for removal from the premises for use elsewhere.
- ☐ 6. **SCRAP VALUE.** The price expectable for a part of a property for sale and removal from the premises for the reclamation of the value of the basic material itself (for example, copper), and not for use as originally intended.
- ☐ 7. **INSURABLE VALUE.** The reproduction cost of insurable items (construction above ground) of all buildings and appurtenances, less accrued physical depreciation.
- ☐ 8. **SEVERANCE DAMAGE.** Loss in value to the remaining property as a result of the taking of a part of the whole property; the diminution of the market value of the remainder area as a result of the severance of the part taken.
- ☐ 9. **JUST COMPENSATION.** In condemnation, the dollar amount to which the owner is entitled for the taking of private property, as of the date of taking, to make the owner whole. Usually it is based on Fair Market Value plus additional awards for certain legally allowable types of damages. In partial takings it is generally measured by the difference between the Fair Market Value of the property as a whole, immediately before and unaffected by the taking, and the Fair Market Value of the remainder immediately after and as affected by the taking.
- ☐ 10. **FAIR ANNUAL RENTAL.** Annual monetary amount reasonably expectable for the rights to the agreed use of real and related personal property as established by competition in the rental market. If market information is unavailable, it is that annual amount which will amortize the value of the remaining capital investment plus a fair rate of interest return during the remaining useful life of the rental property.
- ☐ 10-A. **SERVICED.** The same as defined above including all services as specified under the terms of the lease.
- ☐ 10-B. **UNSERVICED.** The same as above exclusive of the cost of operating services such as heat, light, cleaning, etc.
